

Crew Member (General Labour on Habitat Construction Projects)

This volunteer position involves:

- Manually assist in home construction processes
- Learning different stages of the building process
- Gaining new skills
- Meeting other like minded volunteers while contributing to something tangible

Time commitment:

1 day/week or month during active construction projects

Additional screening required:

- *None*

Training:

Provided at each stage of the build process by skilled trades staff

Qualifications/experience necessary:

- No specific skills necessary, but general construction knowledge is a bonus and welcome!

Our skilled trades' staff will guide you through set tasks each day to help the build timeline move forward

Locations:

Active construction projects in the Habitat for Humanity Halton-Mississauga affiliate region
